Fighting to END Surprise Medical Bills for Patients and Families
Committed to improving patient protections, promoting transparency and increasing access to care

- non-profit, non-partisan, multi-specialty
- advocating in state legislatures and the U.S. Congress since 2016
- partnered with patient and provider advocacy groups
- advancing mission through model legislation, research, media outreach, and educational materials
- grassroots network of tens of thousands of member physicians, serving millions of patients nationwide
- a comprehensive integrated campaign of advocacy, communications and engagement
- physician-led, physician-owned member practice groups more than 90% in-network who support banning balance billing for unexpected out-of-network care

OUR WORK IS MAKING A DIFFERENCE....

- Legislation passed in 8 states takes patients out of the middle and preserves physician practices
- Opposing bills defeated in 9 states prevents insurers from shifting costs further and undermining access
- Model legislation introduced in 3 more states and adopted by the National Council Of Insurance Legislators
- Testimony, representation and influence within state legislatures and the U.S. Congress
- Experienced, connected advocacy professionals working together with PFC member physicians
- Strong partnerships with provider, patient and consumer advocacy organizations
- Research reports, legal opinions, and reimbursement data provided by independent, nationally recognized experts
- A significant social media presence, coupled with earned and paid media, creates visibility and helps drive the narrative
- Targeted grassroots activation of tens of thousands nationwide allows patient and physician voices to be heard

Physicians for Fair Coverage is recognized as an important voice and credible resource in the fight to end surprise billing. With PFC, member groups of all sizes and specialties are effectively represented and together are able to provide powerful advocacy on behalf of their patients and their profession.
